**JP1JP1** (PROF. LARRY JAVIER AMBION, PH.D.)

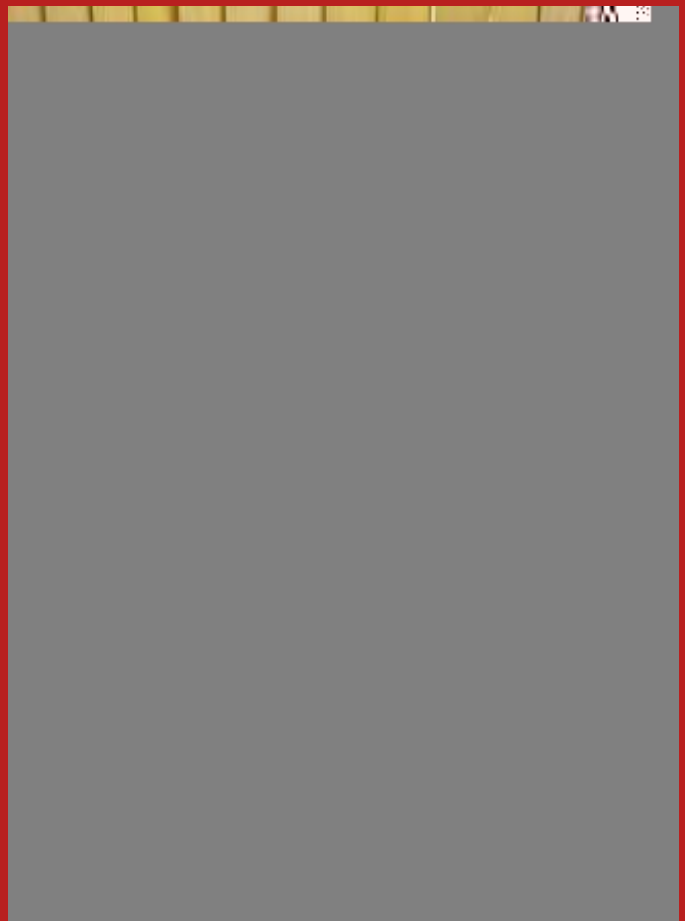

Sarah, Ysrael, Ybarra, Baby Sarah, Beauty, Gagay, Barry (deceased siamese cat dad) and Nognog are Dr. Lars' eight cats whom he addresses with human names for him not to feel isolated or alone (especially during the pandemic); and that he is somehow surrounded by people as he calls them by their names. For more than a decade, Dr. Lars has been taking care of these charming cats; a "fur mom" he claims to Sarah whom he fondly calls Talabeb (the 11-year-old fur queen) who takes care of the other six fur babies and Nognog who was the youngest was a crippled and introvert fur baby. He was supposed to celebrate his 6th barkday (birthday) in June; however, he suffered from kidney ailment and devastatingly passed away last May 7.

Nognog wasn't the handsomest but being a black cat made him the most special in the eyes of many, the crowd favorite. Nog was the sweetest; however, introvert and a fastidious eater (eating steamed chicken only). It was a challenge for Dr. Lars to rear a crippled kitty for six years but according to him it was all worth it. Nognog taught him to be more patient and kindhearted. Moreover, taking care of eight cats gave him a whole other layer of love and respect for pets. Thus, he dreams that someday he will be able to put up a foundation for cats naming it, "Roof-a-Cat."

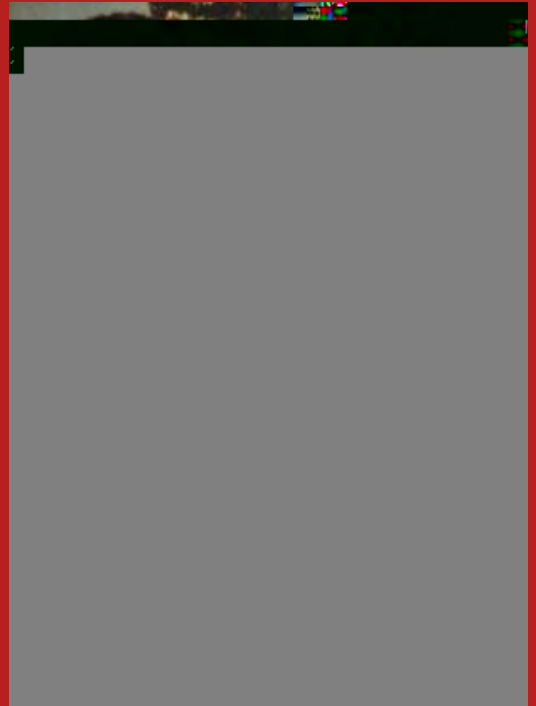

Then it was the Holiday Season of 2021. Twinkle, Chase, and I went home"ho

**ZION AND ZIA [TABA AT LIIT]** (PROF. ROSE PERRERAS)

Zion and Zia are called dearly by their pawrents as Taba and Liit. As a natural charmer, Zia (Liit) takes the baby love of her fur mom for her being sweet and loving. Zion, on the other hand, is the protector. He is very protective of the family to the point that he bit a boy during Christmas. Zion is your typical guard dog who stays in his post especially when his owner is away for work. For most dogs, they know when their owner is near the house; and Zion just knows as he would welcome his fur dad coming home from work.

Zion and Zia are also survivors. Both suffered from parvo virus where they almost died. But their pawrents did not give up on them. Every night, they would visit Taba and Liit in the clinic, making them feel their presence and telling them to live. As pawrents, they also risked a sum of money for their fur babies to live. This canine virus gives a dog a very slim chance of survival. Despite this thought, these pawrents risked their sixteen thousand pesos for their fur babies to live. And thank God for they survived that deadly virus and are now living actively and happily with their new fur parents. Indeed, any pawrent would do anything for their fur babies for the joy they bring to the family is just priceless!

# THE TREASURERS' REPORT

PROF. KIM GUIA & PROF.  
DENNIS MANGUBAT

Based on the information extracted from the "SBU-Cash-Fund-as-of-May-23-2023", several collections have been recorded. The cash flow records indicate various sources of funds and income for the San Beda University Cash Fund.

Among the collections mentioned are:

- Budget for the Faculty outing: A total of P84,000.00 was allocated for the faculty outing.
- From SBU Alumni: P40,000.00 was received from the SBU Alumni as a contribution to the cash fund.
